

# AutoCall Installation Instructions

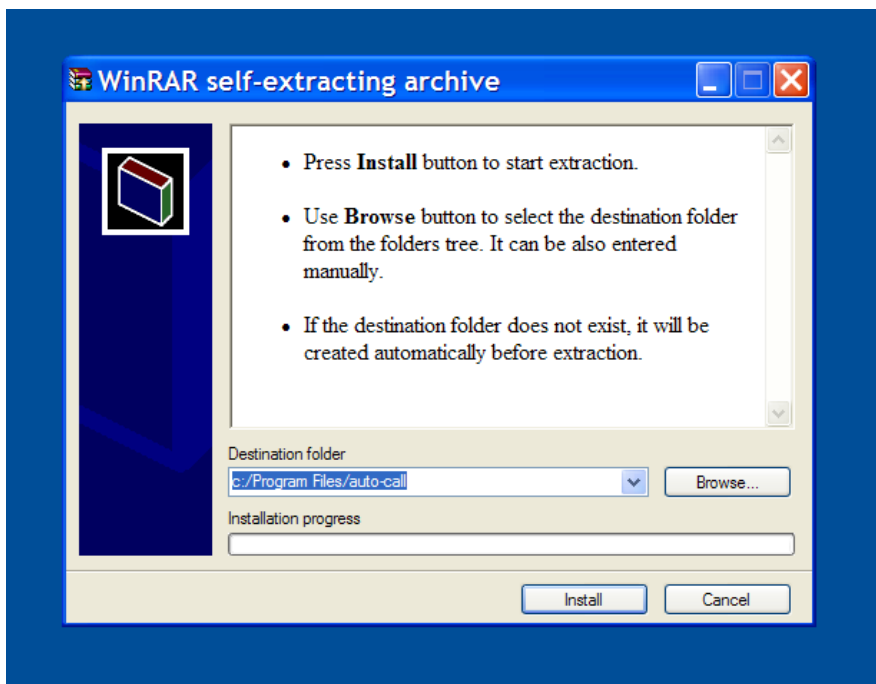

You can get [AutocalSetupWeb.exe](http://www.cool-product.com/AutocalWebSetup.exe) via the Web by clicking on [www.cool-product.com/AutocalWebSetup.exe](http://www.cool-product.com/AutocalWebSetup.exe) or if you have a CD then simply dbl/click on [AutocalSetupWeb.exe](http://www.cool-product.com/AutocalWebSetup.exe) (or depending on your computer settings it may simply be [AutocalSetupWeb](http://www.cool-product.com/AutocalWebSetup.exe)) in the drive directory

| Name ▲  | Size      | Type        | Date Modified        |
|---|-----------|-------------|----------------------|
|  AutocalSetupWeb11Apr.exe | 25,902 KB | Application | 18/04/2011 2:49 p.m. |

Whichever way you chose you will be presented with the following window. *If you are running Microsoft Vista or Windows 7 as your operating system then you may be asked questions like: are you certain, are you sure, do you want to and all other what I call "nannyfied" questions that Microsoft have dreamt up to protect you – you may even have to run as an Administrator to bypass this rubbish.*

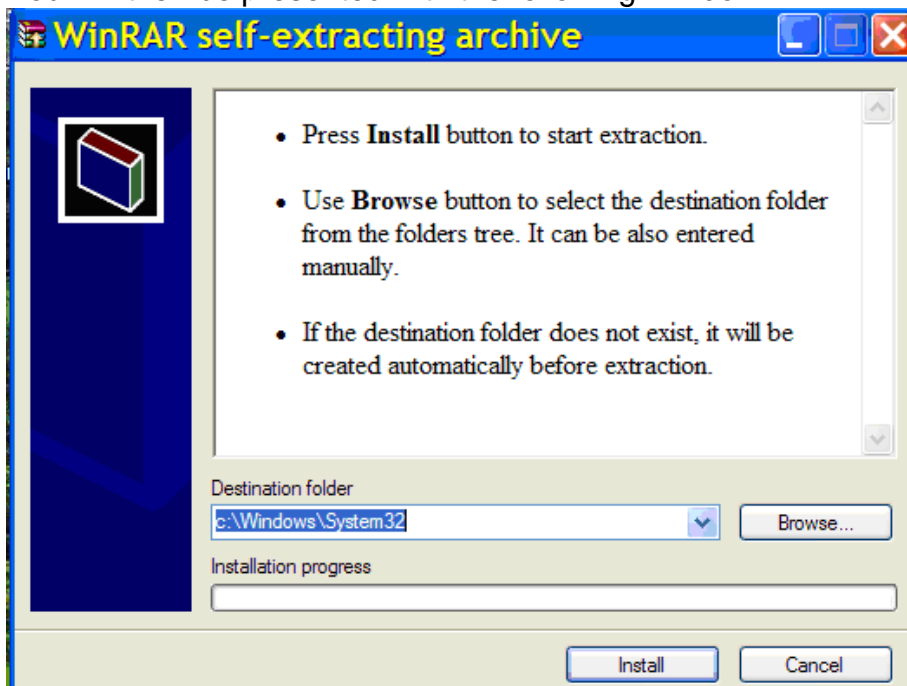

If you are running good old Windows XP then it should be plain sailing.

Simply follow the instructions always answering to the positive like "Install", "Yes" or "OK"

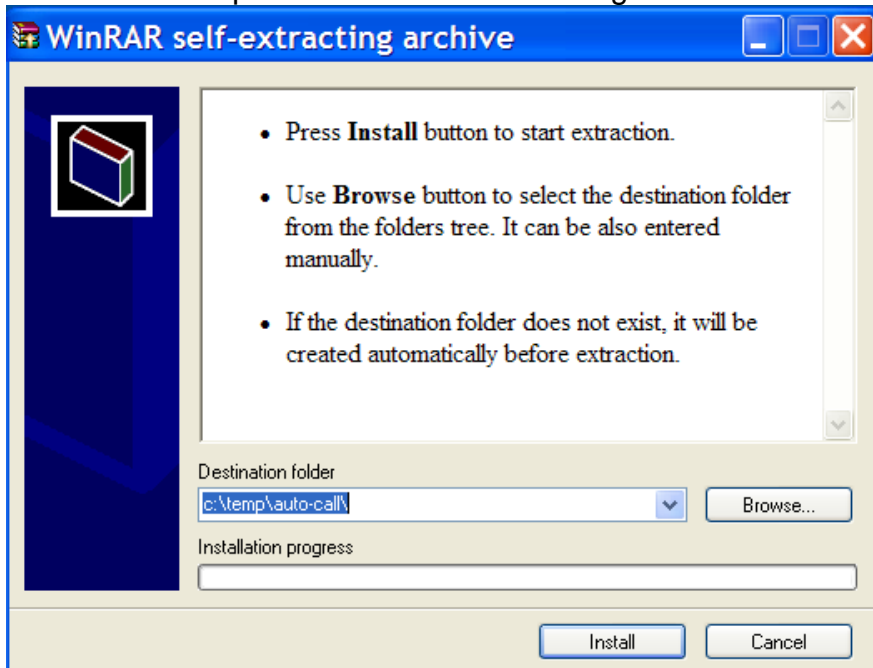

Simply click on **Install**

You will then be presented with the following Window

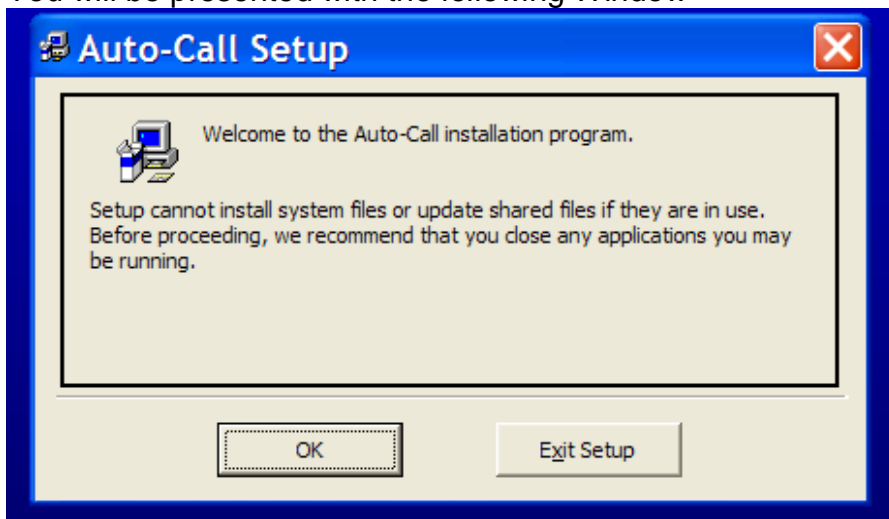

Simply click on **Install**  
You will then be presented with the following Window

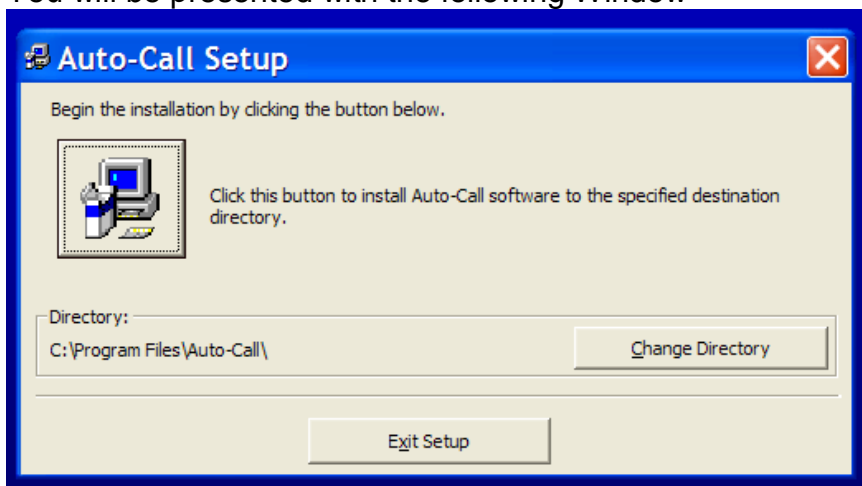

Simply click on **Install**

You will be presented with the following Window

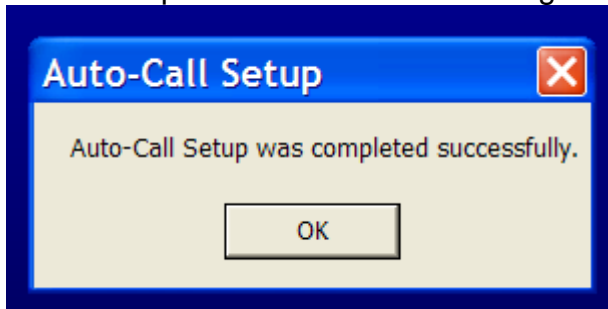

Simply click on **OK**

You will be presented with the following Window

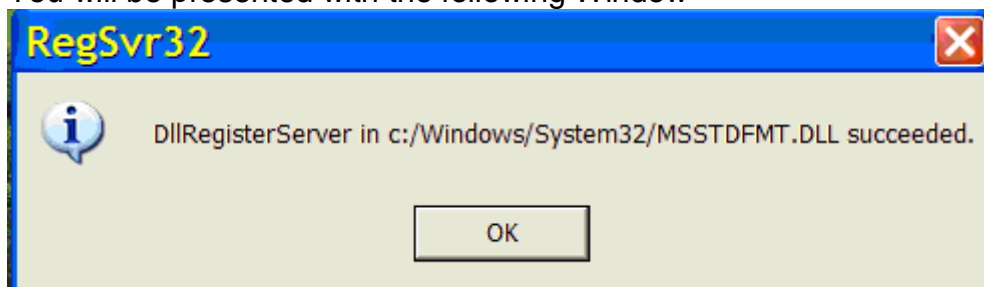

Simply click on the **button** (depicting a PC)

You will be presented with the following Window

Simply click on **OK**

You will be presented with the following Window

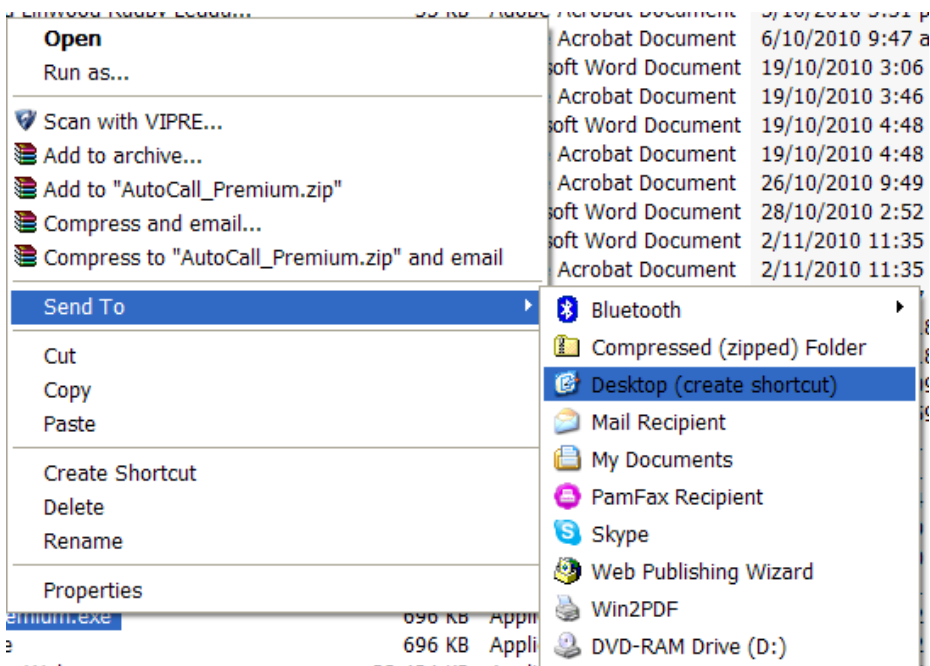

Simply click on **OK**

Congratulations you now have AutoCall installed on your system

I now recommend that you:

- Right/click on the **Start** button
- Left/click on **Explore All Users**
- Left/click on **Local Disk (C:)**
- Left/Click on **Program Files**
- Dbl Left/Click on **auto-call** (depress the left click mouse button twice quickly)
- Right/click on **SuperHouse\_Premium**

You should now be presented with the following Window

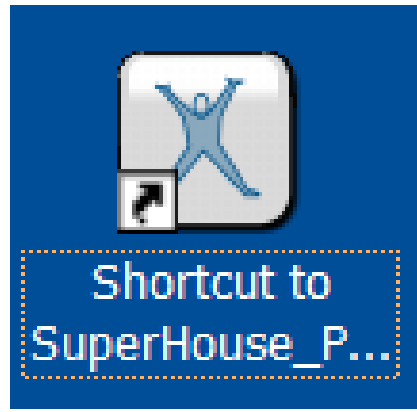

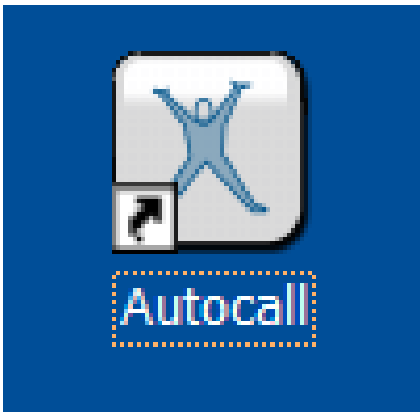

Move your mouse over **Send To**

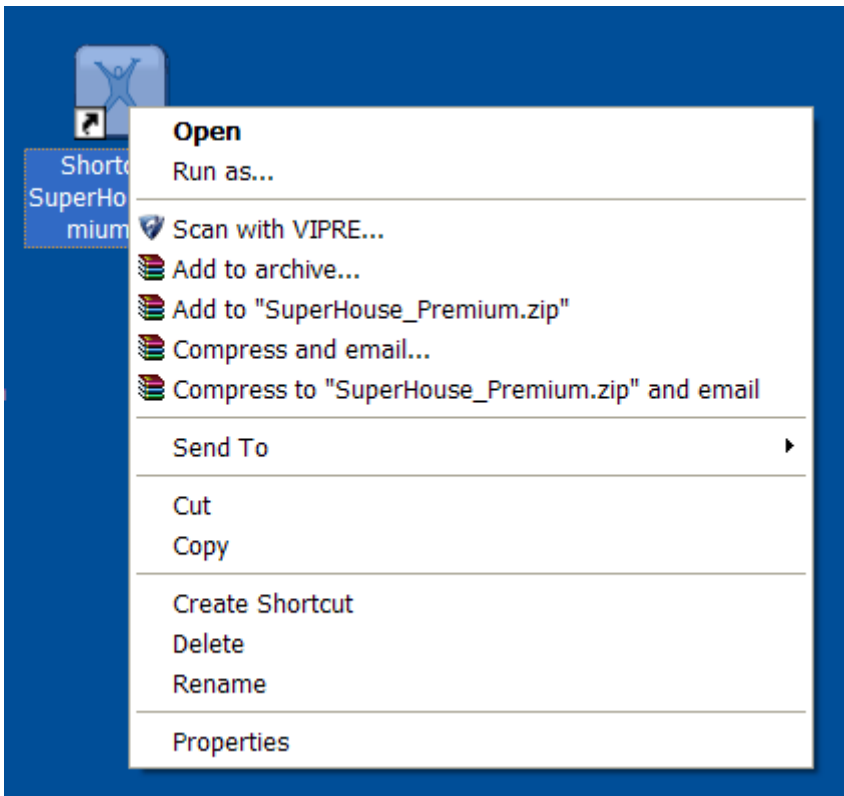

Left/click on **Desk Top (create shortcut)**

This will create an Icon on your Desktop for SuperHouse\_Premium

You should now have on your desktop 2 Icons as follows:

You need to Right/click on the **Shortcut to SuperHouse\_P...**  
This will present you with the following Window

Now Left/click on **Rename** and type **SuperHouse** then click **anywhere** in the empty space on the desk top – You now will have an Icon for SuperHouse on your desk top as well as an Icon for Autocall
